I really wish I knew how to...

I've always wanted to learn...

If only I could...

one day I'd like to learn...

DIY workshop series

At the Tool Library, we don't just provide people with the tools for their next project, we also empower them with the skills and knowledge to feel confident tackling that next big DIY challenge. That's why we're hosting this DIY workshop series to give YOU an opportunity to learn hands-on skills that will save you time and money!

By sharing knowledge and skills, we build stronger, better connected communities.

THE WORKSHOPS

All workshops take place at the CoLab (9 W. Northrup Pl.) next door to the Tool Library unless otherwise noted.

April 4th @ 6PM - Screen Repair & Replacement w/ Eric

April 17th @ 6PM - Water Stone Tool Sharpening w/ Devin
